

HBS 320 G 12.5" Capacity • Semi-Automatic Mitering Bandsaw

HBS 320 G Semi-Automatic Mitering Bandsaw

This new saw features a more rigid and compact design with swivel-head mitering and built in coolant system. In keeping with an exceptionally high standard of machine quality, this KAAST saw incorporates infinitely variable band speed and cutting force for optimum results. The semi-automatic operation (hydraulic head control) will help reduce operator fatigue and injuries, while the simple design and brand-name components will ensure easy service and reduced down-time. The solid cast monoblock construction of the saw frame keeps vibrations to a minimum and results in straight, accurate cuts and long blade life. The blade guides and rollers are carbide to promote longevity. With hydro-mechanical blade tension and an automatic band breakage detection and shut-off feature, this saw is truly a great piece of equipment.

Standard Configuration:

- Feed roller conveyor 1200 mm (47")
- Infinitely variable adjustment of the cutting feed
- Blade breakage control
- Hydromechanical blade tension
- Quick-action vice
- Coolant system
