

HBS 360 DGH

14" Capacity • Semi-Automatic Mitering Bandsaw

HBS 360 DGH Semi-Automatic Mitering Bandsaw

This new saw features a more rigid and compact design with swivel-head (dual) mitering and a built in coolant system. This saw incorporates infinitely variable band speed and cutting force for optimum cutting results. The semi-automatic operation (hydraulic head control) will help reduce operator fatigue and injuries, while the simple design and brand-name components will ensure easy service and reduced downtime. The solid cast monoblock construction of the saw frame keeps vibrations to a minimum and results in straight, accurate cuts and long blade life. The blade guides and rollers are carbide to promote longevity. With hydro-mechanical blade tension and an automatic band breakage detection and shut-off feature, this saw is truly a great piece of equipment.

Standard Configuration:

- Quick-action vice
- Coolant system
- Feed roller conveyor 1200 mm (47")
- Double mitering
