

HBS 460 C 18" Capacity • Semi-Automatic Dual Column Bandsaw

HBS 460 C Semi-Automatic Dual Column Bandsaw

This new saw features a strong linear-way dual-column design and a built in coolant system. This saw incorporates infinitely variable band speed and cutting force for optimum cutting results. The semi-automatic operation will speed production, while the simple design and brand-name components will ensure easy service and reduced down-time. The solid cast monoblock construction of the saw frame keeps vibrations to a minimum and results in straight, accurate cuts and long blade life. The blade guides and rollers are carbide to promote longevity. With hydro-mechanical blade tension and an automatic band breakage detection and shut-off feature, this saw is truly a great piece of equipment.

Standard Configuration:

- Hydraulic quick-action vise
- Exact adjustment from 90° through 45°
- Infinitely variable blade speed
- Roller conveyor 1200 mm (47")
