

DMV 380 VS 15x58" Bed-Type Milling Machine

DMV 380 VS Bed-Type Milling Machine 15x58"

Vertical drilling and milling head swivel range $\pm 45^\circ$ featuring an automatic spindle feed. The bed is made of a high quality MEEHANITE cast iron and all guideways are coated with Turcite B. The X/Y/Z slideways, table, and T-slot are hardened and ground. The milling head is counter balances and there are box ways on the Y-axis and the column. The slideway and ball screw are covered by telescopic steel to protect from damage caused by dirt or coolant. High grade casting is annealed & stress-released, providing high rigidity and wear resistance. Semi-guarding is standard.

Standard Configuration:

- 3-axis digital readout
- Telescopic cover in all axes
- Automatic feed in all axes
- Automatic lubrication
- Ergonomic swiveling control panel
- Coolant system
- 3-axis DRO
- Tool kit

Options included on this machine:

- Air drawbar
- 15x54" Table

As little as \$675*/month!

Specifications	
Table dimensions	380x1370 mm (15x54") [This model]
Axis travel	X: 1000 mm (39") Y: 500 mm (20")
Table load	600 kg (1320 lbs)
Spindle taper	NST #40
Spindle speed	50-3600 rpm
Quill travel	140 mm (5.5")
Head swivel range	$\pm 45^\circ$
Distance spindle-table	85-585 mm (2-23")
Motor	3.7 kW (5 Hp)
Dimensions	2050x2250x2100 mm (81x89x83")
Weight	3100 kg (6820 lbs)

*Based on 60 month lease. Rates subject to change without notice.
