General Purpose Workshop/Straightening Press

HPA 60/1 65 Ton General Purpose Workshop/Straightening Press \$7,975

These general purpose workshop/straightening presses come in 30 to 150 ton press power and are perfect for many repair and assembly jobs, including the straightening of beams, shafts, axles and profiles. They can also be used to remove and replace bearings, pins and bushings. The H-Frame presses are steel welded and come with adjustable table heights.

The HPA series of workshop press boasts simple operation, including the ability to stop at any position, adjustable table height, and overall control using a special joystick, 2 pc. V-blocks, and a safety valve is included to protect against overloading.

Standard Configuration:

- Pressure gauge
- Adjustable table height
- 2 V-blocks
- Joystick control

Specifications
